

- A Board with a maximum of 50 numbers will be put up in the main bar
- A safe will be put alongside it into which a minimum of £200 will be inserted at EVERY home League match; there are 23 of them!
- **THREE** strikers will be nominated by the Manager at the start of the season and a further £50 per League goal that each of them scores will be added to the safe
- **FOUR** keys will be on top of the safe - ONE of which will open it
- Each number on the Board can be owned by one person on their own or by syndicates of people
- At 5.35pm after each Saturday/Bank Holiday home League match, a draw will be made in the bar and one of the 50 numbers will be pulled out of the purple velvet bag.
- The owner of that number will then choose one of the four keys and try to open the safe
- If you succeed in opening the safe, your syndicate number wins the contents of the safe (remember that £200 will be inserted at EVERY home League match plus £50 per League goal scored by each nominated striker)
- If you fail to open the safe, the amount in it and the amounts subsequently inserted, roll over to the next home League match until the safe's contents are won whereupon the amounts start afresh. A consolation prize of £50 will be paid if you don't choose the correct key.
- You or a named representative of your syndicate should be present in the bar to claim the chance to open the safe, but if you are unable to make it, please nominate someone in your absence to choose the key for you.
- There will be 23 draws made in the season. The matches played in mid-week will have draws deferred to the next home Saturday match, meaning that on some Saturdays more than one draw will take place. In this instance, ALL balls will be re-inserted into the purple velvet bag for the second and, if applicable, subsequent draws.
- If the safe is not opened, a draw to win its contents will be made at the End of Season party. A ball will be pulled out of the bag and the lucky owner will attempt to open the safe. If he/she fails to choose the right key, that key will be discarded and a new ball pulled out of the bag until a key is chosen which opens the safe and wins that syndicate the cash inside.
- A special Christmas draw will also offer two season tickets for 2019/20 season

Every "Strikers are Key" syndicate will also receive:

- Free entry to home pre-season Friendly games for one member
- Free entry to the End of Season Party for one member
- Accreditation in a "Strikers are Key" section in the matchday programme

Sign up now to this scheme or get a group together to own one of the 50 available numbers -
